letter from the President

In 1998 we founded the Asociación Creadores de Moda de España, an association that arose to unite fashion designers in the defence of their interests. Thirteen years later we have received the Gold Medal for Merit in Fine Arts from his Majesty King Juan Carlos I.

The toils and efforts laboured in recent years have been rewarded with the highest recognition in Spain in the field of culture in the same year in which we said goodbye to our first president, great fashion designer and good friend Jesús del Pozo, to whom we dedicate this Medal in our particular tribute. 2011 was a year of renovation and endeavour, helping us to grow, incorporating designers of accessories and adding young creators, thereby consolidating ACME as the representative of fashion creation in Spain.

Marketing and globalization continue to be our main goals, therefore we continue developing commercial projects and encouraging the participation of designers in trade shows and international fashion weeks. Considering exporting design as a cornerstone in building the brand Spain. The defence of the cultural values of the fashion from Spain and its promotion is another of our goals in 2011, highlighted by the exhibitions "20 Costumes for Russia" in Moscow, and "Back to the Roots", in New York. Both exhibits have allowed us to transmit our cultural values to the world, emphasizing the mastery of design Made in Spain.

For another year all our interests converge on the catwalk Mercedes Benz Fashion Week in Madrid in which we showcase our collections in the great media event which is the creation of fashion for MADRID, obtaining in the February 2012 edition a media return valued at 13.166.112€ and in the September 2011 edition, 14.485.723€. Being of special relevance the sponsorship by Mercedes Benz of the catwalk in Madrid, endorsing the efforts and worth of the designers who present their collections and of all the fashion system in Spain.

Thank you to all our associates for the efforts and commitment they dedicate. And thank you likewise to the public and private institutions that support us.

Modesto Lomba
President of ACME

letter from the Executive Director

The year 2011 was highlighted by two events, a positive one, being awarded the Gold Medal for Merit in Fine Arts, and a negative one, the sad and heartfelt demise of our first president, Jesús del Pozo. Both have been a stimulus for us in the development of our activities.

We grew, incorporating designers of accessories, currently representing the creation of fashion in Spain.

We developed commercial projects, among others, the collection of Fashion Fans with the publisher Planeta. We encouraged participation in image trade shows during the Semaine des Créateurs of Paris, channelling the aid provided by ICEX to participating designers, be they or not associates. We managed, for the second year, the store CREADORES ESPAÑA in El Corte Ingles, adding new brands in seasonal and capsule collections.

We displayed the cultural values of fashion, with the exhibition "20 Costumes for Russia" within the Dual Year Russia-Spain in the Museum of Decorative Arts in Moscow and in Barcelona Roca Gallery. We worked in creation as a craft showcasing the result in the Foundation Gabarrón, New York with the exhibition "Back to the Roots".

We began our collaboration with the Royal Academy of Spain in Rome to incorporate the creation of fashion at the Academy, in activities and internships. We are party in training future professionals by incorporating ESADE business school as our partner. We worked towards corporate social responsibility with the Social Work of "La Caixa", engaging in training and creative workshops, presenting the work performed at the Caixa Forum in Madrid.

Our associates displayed their collections in the catwalk of Madrid, Cibeles Madrid Fashion Week. Custo Barcelona accomplished 15 years in New York and Amaya Arzuaga two in Paris.

Yet another year we are grateful for the support received from public and private institutions as well as the efforts carried out by our associates without whom we could not have moved forward.
